

RxSafe Marin is a broad-based community coalition dedicated to reducing harm from prescription drug abuse and saving lives.

Data Action Team (2021 update delayed until post-covid)

1. By August 2020, RxSafe Marin will create integrated surveillance that will incorporate Emergency Medical Services (EMS), Emergency Department (ED) and coroner records for fatal and non-fatal opioid overdose events
2. By June 30, 2019, develop, distribute and analyze a survey of Marin County prescribers regarding MAT knowledge and practice
3. During 2019 and 2020 collaborate and share practices, protocols and data with CDPH and UC Davis partners to strengthen opioid overdose surveillance, including potentially serving as a pilot site for BIOSENSE or other surveillance methods
4. By June 2020, generate at least one LiveStories public-facing data dashboard describing a RxSafe Marin initiative
